Subject: Consolidated Operational Guidelines and Participant Framework for Sprint 1

Dear Participants,

Welcome to the GO-BRICS Business Lab. To ensure operational clarity and transparency, this letter outlines the unified rules governing your participation, track structure, and monetization mechanics. These provisions are effective immediately for the commencement of Sprint 1.

1. Participant Track Structure

All participants operate under one of two tracks, confirmed during onboarding. Your track determines your focus and how your efforts translate into rewards:

- **Track A — Sales Track:** Focused on B2B outreach, lead generation, meetings, negotiations, and purchase orders.
- **Track B — Projects Track:** Focused on content creation, automation, research, analytics, and operations.

Transfers: Participants may request to change their assigned track once during the program, only between sprints, subject to review and approval by their coordinator and the Operations team. Once approved, the participant shall fully transition to the new track and operate under its corresponding rules, responsibilities, and payout structure.

2.

GBP Monetization Mechanics

GO-BRICS Points (GBP) are a weighting mechanism to determine your share of team income. They do not constitute direct money.

- **Internal Conversion:** Within the pool mechanism, 1 GBP is equivalent to ₹1.
- **The Sprint Pool:** The pool is calculated as: **Pool (₹) = Σ (GBP rate per SKU $\times$ units sold)**. Only confirmed and paid orders are counted.
- **Track A Payout:** Participants receive a proportional share **of the sprint pool** based on their GBP weight relative to the team.
- **Track B Bonus:** One winner per sprint may receive a bonus fund for a measurable "Best Solution" contribution.
- **No-Sales Rule:** If no sales are confirmed, the pool is zero. In this case, your earned GBP will carry forward to the next sprint.

3. Fixed Sales Rates (SKU Table)

The following fixed amounts are credited to the team pool for every unit sold:

Code	Product	GBP to Pool (per unit)
SKU-01	Kavach Shield OM	48 GBP

Code	Product	GBP to Pool (per unit)
SKU-02	Vastu Dosh Pyramid	80 GBP
SKU-03	Amrit Jal Shuddhi Set	55 GBP (Temporary Rate)
SKU-04	Rudra-Shila Raksha Mala	33 GBP
SKU-05	Shila Raksha Pendant OM	40 GBP

4. Motivational Points (MP) Framework

MP functions as an engagement signal and is awarded upon verified task submission, regardless of your cash payout.

Grade	GBP Range	MP Awarded
S	300 – 500	10 MP
A	150 – 200	5 MP
B	70 – 120	3 MP
C	50 – 70	2 MP
D	25 – 40	1 MP

Note: A 70% task completion rate still qualifies you for the full MP award.

5. Payment Schedule and Conditions

- **Frequency:** Payouts occur every two weeks at the end of the sprint.
- **Threshold:** A minimum transfer amount of **₹2000** is required. Amounts below this will carry over.
- **Proof:** Tasks without confirmed Proof will generate 0 GBP. All Proof must be submitted before the sprint closes.
- **Guaranteed Outcome (Track B):** All Track B participants are guaranteed an official internship certificate and a GO-BRICS recommendation letter regardless of sales results.

For any disputes regarding calculations, you must notify your coordinator within **48 hours** of the publication of sprint results.

We look forward to your contributions in the coming sprint.

Yours sincerely,

GO-BRICS BusinessLAB Team
